**Biometrics: Personal Identification in Networked Society (The Springer International Series in Engineering and Computer Science)** Anil K. Jain, Ruud Bolle, Sharath Pankanti

*Biometrics: Personal Identification in Networked Society* is a comprehensive and accessible source of state-of-the-art information on all existing and emerging biometrics: the science of automatically identifying individuals based on their physiological or behavior characteristics. In particular, the book covers:

\*General principles and ideas of designing biometric-based systems and their underlying tradeoffs

\*Identification of important issues in the evaluation of biometrics-based systems

\*Integration of biometric cues, and the integration of biometrics with other existing technologies

\*Assessment of the capabilities and limitations of different biometrics

\*The comprehensive examination of biometric methods in commercial use and in research development

\*Exploration of some of the numerous privacy and security implications of biometrics.

Also included are chapters on face and eye identification, speaker recognition, networking, and other timely technology-related issues. All chapters are written by leading internationally recognized experts from academia and industry.

*Biometrics: Personal Identification in Networked Society* is an invaluable work for scientists, engineers, application developers, systems integrators, and others working in biometrics.

**From reader reviews:**

**Maria Bruns:**

What do you regarding book? It is not important to you? Or just adding material if you want something to explain what yours problem? How about your time? Or are you busy man or woman? If you don't have spare time to try and do others business, it is make one feel bored faster. And you have time? What did you do? Every person has many questions above. They should answer that question simply because just their can do that. It said that about guide. Book is familiar on every person. Yes, it is correct. Because start from on guardería until university need this particular Biometrics: Personal Identification in Networked Society (The Springer International Series in Engineering and Computer Science) to read.

**Michael Decker:**

Playing with family in a very park, coming to see the marine world or hanging out with good friends is thing that usually you could have done when you have spare time, in that case why you don't try thing that really opposite from that. 1 activity that make you not sensation tired but still relaxing, trilling like on roller coaster you are ride on and with addition of information. Even you love Biometrics: Personal Identification in Networked Society (The Springer International Series in Engineering and Computer Science), you may enjoy both. It is great combination right, you still would like to miss it? What kind of hang type is it? Oh come on its mind hangout people. What? Still don't understand it, oh come on its known as reading friends.

**Susan Crowell:**

Do you have something that you like such as book? The book lovers usually prefer to choose book like comic, limited story and the biggest an example may be novel. Now, why not hoping Biometrics: Personal Identification in Networked Society (The Springer International Series in Engineering and Computer Science) that give your entertainment preference will be satisfied through reading this book. Reading routine all over the world can be said as the method for people to know world better then how they react toward the world. It can't be said constantly that reading behavior only for the geeky particular person but for all of you who wants to always be success person. So , for all of you who want to start examining as your good habit, you may pick Biometrics: Personal Identification in Networked Society (The Springer International Series in Engineering and Computer Science) become your own personal starter.

**Wayne Martin:**

Do you like reading a e-book? Confuse to looking for your chosen book? Or your book was rare? Why so many question for the book? But any kind of people feel that they enjoy for reading. Some people likes studying, not only science book but in addition novel and Biometrics: Personal Identification in Networked Society (The Springer International Series in Engineering and Computer Science) or maybe others sources were given knowledge for you. After you know how the truly great a book, you feel desire to read more and

more. Science reserve was created for teacher or perhaps students especially. Those ebooks are helping them to increase their knowledge. In different case, beside science e-book, any other book likes Biometrics: Personal Identification in Networked Society (The Springer International Series in Engineering and Computer Science) to make your spare time far more colorful. Many types of book like this one.
