French Cruisers, 1922-1956

John Jordan, Jean Moulin

French Cruisers, 1922-1956 John Jordan, Jean Moulin

The French produced some of the most striking and innovative interwar cruiser designs. A large amount of new information about these ships has become available over the past twenty years in France, but this book is the first to make this accessible to an English-speaking readership.

Part I explains the design philosophy behind each of the classes built after 1922, and outlines the characteristics of each type, accompanied by detailed data tables and a comprehensive set of specially-drawn plans based on official documents, as well as carefully-selected photographs. Part II deals with the historical side, covering not only the eventful careers of these ships in both war and peace. Like its highly successful predecessor, *French Battleships*, this beautifully presented book subtly blends technical and historical analysis to produce what must become the standard reference work.
