Remember the view from atop a tree? You could survey the landscape like a monarch, escape your parents' watchful eye, and let your imagination run wild. Well, just because you've grown up, it doesn't mean you can't enjoy the sense of liberation a tree provides. Here is the most comprehensive guide ever to building your own castle in the air, be it a simple child's playhouse or an adult's cozy retreat with all the modern conveniences, including electricity. Peter Nelson, the nation's foremost authority on treehouses, tells you everything you need to know about designing and building the house that's right for you and your family. He gives you information on site selection (why some trees provide better homes than others), safety issues, tree care, advice on styles and materials, and other essential rules of thumb that will save time and money.

Nelson walks you through the construction of four actual projects: a children's playhouse, a vacation home, an office, and a full-time residence. Whether you'd like to build your children a safe and fun place to play and dream, or you're contemplating your own retreat from the drudgeries of earthbound living, this practical, wildly fanciful guide will show you how to make your tree fantasies come true.
