Steven B. Sherman

In *Revitalizing Theological Epistemology*, Steven B. Sherman addresses questions about what evangelical theology ought to be doing in light of the changing cultural situation. He wonders if the Christian faith should continue to be presented and defended mainly according to Enlightenment principles when growing criticism of modern thought is affecting virtually every discipline, and if evangelicalism and its intellectual leaders ought to wait it out or whether they should re-vision their theology. This book is about contemporary evangelical approaches to the knowledge of God, considering - and suggesting - ways Christian philosophers and theologians envision and make use of theological knowledge in the postmodern context.
