The collection includes contributions from 16 policy experts, principally Cato Institute scholars, who assess the Republican record in each major policy area, including welfare, education, health care, regulation, taxation, and trade. It also features essays by the key architects of the 1994 election victory, Newt Gingrich and Dick Armey, who went on to lead the Republican House of Representatives. As the Republicans begin their second decade in power, this book will help supporters and critics of the party's agenda understand what lies ahead in federal policymaking.
