Energizing Water: Flowform Technology and the Power of Nature John Wilkes, Jochen, Trousdell, Iain Schwuchow

Research into energetic water quality - and the creation of moulded surfaces that support biological purification of the chemical and organic elements, as well as enlivening the energetic attributes, goes back to Adams' and Wilkes' pioneering work in the '60s. The invention of Flowform technology in 1970 carried this research further, providing the world with one of the first biomimicry eco-technologies. This book outlines the background story on research and application of the Flowform method.
