The Racecar Book: Build and Race Mousetrap Cars, Dragsters, Tri-Can Haulers & More (Science in Motion) Bobby Mercer

You may not be old enough to drive, but that doesn't mean you can't satisfy your need for speed. Author and physics teacher Bobby Mercer shows how to use mousetraps, rubber bands, chemical reactions, gravity, and air pressure to power fast-moving vehicles. Each of the 25 easy-to-build racecars is constructed for little or no cost using recycled and repurposed materials. Retrofit a toy car with a model plane propeller to make an air-powered Prop Car. Turn a potato chip can, a rubber band, and weights into a Chip-Can Dancer. Or use an effervescent tablet in a small canister as an impressive rocket engine for a Mini Pop Car. Every project in *The Racecar Book* contains a materials list and detailed step-by-step instructions with photos for easy assembly. Mercer also includes explanations of the science behind each racecar, including concepts such as friction, Newton's laws of motion, kinetic and potential energy, and more. These projects are perfect for science fairs or design competitions, or just having fun!

From reader reviews:

Sonya Ewing:

Information is provisions for anyone to get better life, information currently can get by anyone from everywhere. The information can be a expertise or any news even a huge concern. What people must be consider when those information which is from the former life are difficult to be find than now is taking seriously which one works to believe or which one the resource are convinced. If you obtain the unstable resource then you obtain it as your main information there will be huge disadvantage for you. All of those possibilities will not happen with you if you take The Racecar Book: Build and Race Mousetrap Cars, Dragsters, Tri-Can Haulers & More (Science in Motion) as your daily resource information.

Elisabeth Martinez:

People live in this new morning of lifestyle always aim to and must have the extra time or they will get great deal of stress from both daily life and work. So , whenever we ask do people have spare time, we will say absolutely indeed. People is human not really a huge robot. Then we question again, what kind of activity are you experiencing when the spare time coming to you of course your answer will probably unlimited right. Then do you ever try this one, reading guides. It can be your alternative within spending your spare time, the particular book you have read is The Racecar Book: Build and Race Mousetrap Cars, Dragsters, Tri-Can Haulers & More (Science in Motion).

Marina Tucker:

Do you have something that you like such as book? The reserve lovers usually prefer to pick book like comic, short story and the biggest one is novel. Now, why not trying The Racecar Book: Build and Race Mousetrap Cars, Dragsters, Tri-Can Haulers & More (Science in Motion) that give your enjoyment preference will be satisfied by reading this book. Reading addiction all over the world can be said as the opportunity for people to know world better then how they react when it comes to the world. It can't be stated constantly that reading behavior only for the geeky person but for all of you who wants to possibly be success person. So , for all you who want to start reading through as your good habit, it is possible to pick The Racecar Book: Build and Race Mousetrap Cars, Dragsters, Tri-Can Haulers & More (Science in Motion) become your own personal starter.

Robert Mangino:

Reading a book being new life style in this calendar year; every people loves to examine a book. When you read a book you can get a lot of benefit. When you read textbooks, you can improve your knowledge, due to the fact book has a lot of information upon it. The information that you will get depend on what kinds of book that you have read. In order to get information about your research, you can read education books, but if you want to entertain yourself you can read a fiction books, this sort of us novel, comics, as well as soon. The The Racecar Book: Build and Race Mousetrap Cars, Dragsters, Tri-Can Haulers & More (Science in

Motion) provide you with a new experience in reading a book.
