Mathematical Methods: Linear Algebra, Normed Spaces, Distributions, Integration (Dover Books on Mathematics)

Jacob Korevaar, Mathematics

Mathematical Methods: Linear Algebra, Normed Spaces, Distributions, Integration (Dover Books on Mathematics)

Jacob Korevaar, Mathematics

Mathematical Methods: Linear Algebra, Normed Spaces, Distributions, Integration (Dover Books on Mathematics) Jacob Korevaar, Mathematics

Rigorous but not abstract, this intensive introductory treatment provides many of the advanced mathematical tools used in applications. It also supplies the theoretical background that will make most other parts of modern mathematical analysis accessible. Author Jacob Korevaar, Professor Emeritus at the University of Amsterdam, based this text on his intensive beginning graduate course for students in the physical sciences and applied mathematics. His introductory and relatively general material prepares students for such subjects as orthogonal series, linear operators in Hilbert space, integral equations, Sturm-Liouville problems, and partial differential equations.

The three-part treatment begins with relevant topics in linear algebra, with emphasis on the basic concepts of vector spaces and linear transformation. The second part introduces functional analysis and discusses distributions. The final section addresses integration theory, developing the properties of Lebesgue integral functions and related topics. A year of advanced calculus is the principal prerequisite for this text, in addition to some knowledge of elementary linear algebra and elementary differential equations.

From reader reviews:

Maria Saad:

Information is provisions for anyone to get better life, information today can get by anyone on everywhere. The information can be a know-how or any news even a concern. What people must be consider if those information which is inside the former life are difficult to be find than now could be taking seriously which one works to believe or which one the actual resource are convinced. If you obtain the unstable resource then you have it as your main information we will see huge disadvantage for you. All those possibilities will not happen inside you if you take Mathematical Methods: Linear Algebra, Normed Spaces, Distributions, Integration (Dover Books on Mathematics) as your daily resource information.

Diane Numbers:

Are you kind of occupied person, only have 10 as well as 15 minute in your day time to upgrading your mind proficiency or thinking skill also analytical thinking? Then you are having problem with the book than can satisfy your small amount of time to read it because this all time you only find book that need more time to be study. Mathematical Methods: Linear Algebra, Normed Spaces, Distributions, Integration (Dover Books on Mathematics) can be your answer since it can be read by you who have those short time problems.

Karyn Turner:

Don't be worry in case you are afraid that this book will filled the space in your house, you may have it in e-book approach, more simple and reachable. That Mathematical Methods: Linear Algebra, Normed Spaces, Distributions, Integration (Dover Books on Mathematics) can give you a lot of pals because by you investigating this one book you have factor that they don't and make you more like an interesting person. This book can be one of one step for you to get success. This book offer you information that possibly your friend doesn't realize, by knowing more than other make you to be great people. So , why hesitate? Let us have Mathematical Methods: Linear Algebra, Normed Spaces, Distributions, Integration (Dover Books on Mathematics).

Raymond Littlefield:

What is your hobby? Have you heard that will question when you got pupils? We believe that that issue was given by teacher to the students. Many kinds of hobby, Everybody has different hobby. And also you know that little person like reading or as reading through become their hobby. You must know that reading is very important as well as book as to be the thing. Book is important thing to include you knowledge, except your personal teacher or lecturer. You find good news or update concerning something by book. Different categories of books that can you choose to use be your object. One of them are these claims Mathematical Methods: Linear Algebra, Normed Spaces, Distributions, Integration (Dover Books on Mathematics).
