## **Zona caliente (Spanish Edition)** Richard Preston

Zona caliente fue escrito y publicado en 1994 para explicar los orígenes y la evolución del virus ebola y advertir del peligro de su propagación en el futuro. Su autor, Richard Preston, catedrático de la Universidad de Princeton y un destacado especialista en abordar temas científicos con un alto nivel de rigor y conocimiento de la materia, fue el primero en dar a conocer al gran público la amenaza del ebola, un virus potencialmente mil veces más letal que el VIH del sida y que, hasta el día de hoy, no ha sido controlado en su totalidad. / A highly infectious, deadly virus from the central African rain forest suddenly appears in the suburbs of Washington, D.C. There is no cure. In a few days 90 percent of its victims are dead. A secret military SWAT team of soldiers and scientists is mobilized to stop the outbreak of this exotic ""hot"" virus.
