## **The Work of William Morris** Paul Thompson

Extensively revised, this third edition of *The Work of William Morris* encompasses the results of recent scholarship, including in particular the new perspectives of feminist scholarship. Thompson examines how Morris's concerns anticipated those of present day environmentalists and explores in full detail Morris's views on child-centered education. Bringing to life his magnetic personality, this biography of one of the original socialists offers insight into Morris's campaign to bring art back to the people.
