## Analytic Extension Formulas and their Applications (International Society for Analysis, Applications and Computation)

Analytic Extension is a mysteriously beautiful property of analytic functions. With this point of view in mind the related survey papers were gathered from various fields in analysis such as integral transforms, reproducing kernels, operator inequalities, Cauchy transform, partial differential equations, inverse problems, Riemann surfaces, Euler-Maclaurin summation formulas, several complex variables, scattering theory, sampling theory, and analytic number theory, to name a few.

*Audience:* Researchers and graduate students in complex analysis, partial differential equations, analytic number theory, operator theory and inverse problems.
