*400 MCQs in Paediatrics for MRCPCH Part 1* reviewed by *Colin M Stern, Consultant Paediatrician*

"This collection is a valuable addition to the armamentarium of the prospective paediatrician"

"This text provides the revising trainee with realistic and fair clinical conundrums that have much wider applications than in an examination hall. Like any good revision text this collection of cases allows you to forget that you are actually revising and by the end of the book you develop a knack for identifying pertinent information and ignoring the red herrings.
