Latin America in the Post-Chávez Era Luis Fleischman

Hugo Chávez passed away in March 2013 after a two-year battle with cancer, prompting much speculation about the impact of his death. What will a post-Chávez future look like, not only in Venezuela but also in the region? In *Latin America in the Post-Chávez Era*, Luis Fleischman examines Chávez's highly controversial Bolivarian revolution, which has expanded beyond Venezuela to other countries in South America and whose sphere of influence also extends to Central America and the Caribbean. In this context, the author systematically shows how an emerging authoritarianism in the region plays an important role in defining the geo-political context of the region.
