Learning CFEngine 3: Automated system administration for sites of any size Diego Zamboni

CFEngine is the most mature and widely used tool for comprehensive configuration management. This book is devoted to CFEngine 3, released in 2009. The main audience for this book is experienced system administrators of null-to-medium expertise with CFEngine, although more advanced CFEngine users may also find useful snippets and techniques. Its goal is to guide you from installation to advanced examples and concepts by using examples and techniques that can be put to work straight away.

CFEngine was first released in 1993, and it has evolved over the years to address real needs in real systems, and to match the technological evolutions that have taken place, such as virtualization and cloud computing. CFEngine is fine-tuned to the features and design that make it possible to automate very large numbers of systems in a scalable and manageable way. CFEngine has been designed to be very resource-efficient, and it can run on everything from smartphones to supercomputers.

With the new version came a complete overhaul of its syntax and mode of operation, and with many new features such as Knowledge Management and support for virtual environments. CFEngine 3 is different from many other automation mechanisms in that you do not need to tell it what to do. Instead, you specify the state in which you wish the system to be, and CFEngine will automatically and iteratively decide the actions to take to reach the desired state, or as close to it as possible. Underlying this ability is a powerful theoretical model known as Promise Theory, which was initially developed for CFEngine 3, but which has also found other applications in Computer Science and in other fields such as Economics and Organization.

From reader reviews:

Brian Freeman:

Why don't make it to be your habit? Right now, try to prepare your time to do the important action, like looking for your favorite guide and reading a publication. Beside you can solve your short lived problem; you can add your knowledge by the e-book entitled Learning CFEngine 3: Automated system administration for sites of any size. Try to make book Learning CFEngine 3: Automated system administration for sites of any size as your buddy. It means that it can for being your friend when you feel alone and beside regarding course make you smarter than ever before. Yeah, it is very fortunated to suit your needs. The book makes you much more confidence because you can know every thing by the book. So , we need to make new experience and knowledge with this book.

Jennifer Howard:

Nowadays reading books be a little more than want or need but also turn into a life style. This reading behavior give you lot of advantages. The advantages you got of course the knowledge the rest of the information inside the book in which improve your knowledge and information. The details you get based on what kind of guide you read, if you want attract knowledge just go with education and learning books but if you want feel happy read one together with theme for entertaining such as comic or novel. The particular Learning CFEngine 3: Automated system administration for sites of any size is kind of book which is giving the reader unstable experience.

Sam Nielsen:

The e-book with title Learning CFEngine 3: Automated system administration for sites of any size includes a lot of information that you can discover it. You can get a lot of gain after read this book. That book exist new knowledge the information that exist in this e-book represented the condition of the world now. That is important to yo7u to find out how the improvement of the world. This kind of book will bring you with new era of the glowbal growth. You can read the e-book on your own smart phone, so you can read the item anywhere you want.

Tanya Wilson:

A lot of reserve has printed but it is unique. You can get it by world wide web on social media. You can choose the top book for you, science, witty, novel, or whatever by searching from it. It is identified as of book Learning CFEngine 3: Automated system administration for sites of any size. Contain your knowledge by it. Without making the printed book, it might add your knowledge and make a person happier to read. It is most critical that, you must aware about book. It can bring you from one place to other place.
