## **Red Moon** Michael Cassutt

It begins in 1964 with the sudden and unexpected death of Sergai Korolev, the man who ran the Soviet Space Program. Young Yuri Ribko, an engineering student working for one of the Korolev's bureaus, is either fortunate or unfortunate to have an uncle who is a high ranking member of State security. Yuri's uncle recruits him to spy within the Bureau, to assist in identifying possible threats to the Space Program. In return, Yuri is set on a fast-track of promotion, from engineering assistant to cosmonaut.

From the earliest work on Russia's lunar lander, through a devastating string of exploding launch vehicles and deadly landings, Red Moon gives us an insider's view of Russia's gallant but doomed Moon Shot.
