Tong Zhang, C.C. Jay Kuo

**Content-Based Audio Classification and Retrieval for Audiovisual Data Parsing (The Kluwer International Series in Engineering and Computer Science, Volume ... Series in Engineering and Computer Science)** Tong Zhang, C.C. Jay Kuo

*Content-Based Audio Classification and Retrieval for Audiovisual Data Parsing* is an up-to-date overview of audio and video content analysis. Included is extensive treatment of audiovisual data segmentation, indexing and retrieval based on multimodal media content analysis, and content-based management of audio data. In addition to the commonly studied audio types such as speech and music, the authors have included hybrid types of sounds that contain more than one kind of audio component such as speech or environmental sound with music in the background. Emphasis is also placed on semantic-level identification and classification of environmental sounds. The authors introduce a new generic audio retrieval system on top of the audio archiving schemes. Both theoretical analysis and implementation issues are presented. The developing MPEG-7 standards are explored.

*Content-Based Audio Classification and Retrieval for Audiovisual Data Parsing* will be especially useful to researchers and graduate level students designing and developing fully functional audiovisual systems for audio/video content parsing of multimedia streams.

**From reader reviews:**

**Grady Meraz:**

Why don't make it to be your habit? Right now, try to prepare your time to do the important work, like looking for your favorite e-book and reading a publication. Beside you can solve your trouble; you can add your knowledge by the guide entitled Content-Based Audio Classification and Retrieval for Audiovisual Data Parsing (The Kluwer International Series in Engineering and Computer Science, Volume ... Series in Engineering and Computer Science). Try to face the book Content-Based Audio Classification and Retrieval for Audiovisual Data Parsing (The Kluwer International Series in Engineering and Computer Science, Volume ... Series in Engineering and Computer Science) as your friend. It means that it can be your friend when you really feel alone and beside regarding course make you smarter than previously. Yeah, it is very fortunate for yourself. The book makes you more confidence because you can know everything by the book. So, let me make new experience as well as knowledge with this book.

**Roger Patrick:**

Throughout other case, little individuals like to read book Content-Based Audio Classification and Retrieval for Audiovisual Data Parsing (The Kluwer International Series in Engineering and Computer Science, Volume ... Series in Engineering and Computer Science). You can choose the best book if you'd prefer reading a book. As long as we know about how is important a new book Content-Based Audio Classification and Retrieval for Audiovisual Data Parsing (The Kluwer International Series in Engineering and Computer Science, Volume ... Series in Engineering and Computer Science). You can add know-how and of course you can around the world by the book. Absolutely right, mainly because from book you can learn everything! From your country until eventually foreign or abroad you will find yourself known. About simple issue until wonderful thing you can know that. In this era, we are able to open a book or searching by internet system. It is called e-book. You should use it when you feel weary to go to the library. Let's go through.

**Reuben Beaubien:**

Typically the book Content-Based Audio Classification and Retrieval for Audiovisual Data Parsing (The Kluwer International Series in Engineering and Computer Science, Volume ... Series in Engineering and Computer Science) will bring that you the new experience of reading a book. The author style to explain the idea is very unique. In case you try to find new book to study, this book very appropriate to you. The book Content-Based Audio Classification and Retrieval for Audiovisual Data Parsing (The Kluwer International Series in Engineering and Computer Science, Volume ... Series in Engineering and Computer Science) is much recommended to you you just read. You can also get the e-book through the official web site, so you can more easily to read the book.

**Shannon Thomas:**

Your reading 6th sense will not betray an individual, why because this Content-Based Audio Classification and Retrieval for Audiovisual Data Parsing (The Kluwer International Series in Engineering and Computer Science, Volume ... Series in Engineering and Computer Science) guide written by well-known writer whose to say well how to make book that could be understand by anyone who also read the book. Written in good manner for you, leaking every ideas and creating skill only for eliminate your personal hunger then you still question Content-Based Audio Classification and Retrieval for Audiovisual Data Parsing (The Kluwer International Series in Engineering and Computer Science, Volume ... Series in Engineering and Computer Science) as good book not simply by the cover but also by the content. This is one e-book that can break don't determine book by its handle, so do you still needing a different sixth sense to pick this particular!? Oh come on your studying sixth sense already said so why you have to listening to yet another sixth sense.
