The Complete Book of Chart Rectification Carol A. Tebbs

Knowing a client's exact time of birth is crucial for an accurate astrological chart interpretation. A variance of just a few minutes can lead to incorrect positions of the angles and the Moon. Once considered rocket science for astrologers, the practice of chart rectification is now within easy reach.

In this unparalleled book, esteemed astrologer Carol Tebbs streamlines the process of rectifying questionable or unknown birth times using modern astrological techniques. Learn to recognize consistent patterns in which astrological indicators correspond with the client's most dramatic life events. By comparing these significant life events with "aspect hooks," you can then determine the most likely birth time.

Offering dozens of tables and diagrams, this easy-to-follow book presents a step-by-step procedure for rectifying missing or unreliable data to help you derive accurate birth times. A must-have book for the next generation of astrologers, *The Complete Book of Chart Rectification* breaks down a complex task so that you can provide accurate forecasts for your clients.

This book devotes entire chapters to four rectification case studies, including those of Elizabeth Taylor, Johnny Cash, and Jimmy Swaggart.

So , how do you think about this reserve?

Ken Martin:

Information is provisions for people to get better life, information these days can get by anyone from everywhere. The information can be a information or any news even a concern. What people must be consider when those information which is from the former life are hard to be find than now's taking seriously which one is appropriate to believe or which one typically the resource are convinced. If you obtain the unstable resource then you get it as your main information you will have huge disadvantage for you. All those possibilities will not happen with you if you take The Complete Book of Chart Rectification as your daily resource information.

Doris Griffin:

Is it anyone who having spare time subsequently spend it whole day simply by watching television programs or just telling lies on the bed? Do you need something totally new? This The Complete Book of Chart Rectification can be the answer, oh how comes? A book you know. You are therefore out of date, spending your free time by reading in this brand new era is common not a geek activity. So what these publications have than the others?

Owen Neri:

As a university student exactly feel bored for you to reading. If their teacher inquired them to go to the library in order to make summary for some book, they are complained. Just tiny students that has reading's spirit or real their pastime. They just do what the professor want, like asked to the library. They go to right now there but nothing reading seriously. Any students feel that reading through is not important, boring and can't see colorful photographs on there. Yeah, it is to be complicated. Book is very important to suit your needs. As we know that on this period of time, many ways to get whatever we really wish for. Likewise word says, many ways to reach Chinese's country. Therefore , this The Complete Book of Chart Rectification can make you sense more interested to read.
